October 1991 News Letter

Dear Fellow Hams,

Included in this month's news letter are several items that you have been patiently awaiting.

The first is a list of emergency speed dial numbers that have been programmed on the 145.47 and the 147.06 Mhz repeaters along with the operation instructions. The list shows four frequencies where they may be used. One of the new ones is on High House Mtn as 443.200 Mhz and the other one is 444.475 Mhz for Sweat Mtn. There has been a frequency change for the UHF repeaters due to Intermodulation problems with 443.200 Mhz on Sweat Mtn. When 444.475 is crystaled up and re-tuned, you will be able to use it for the emergency speed dial numbers as well as the 145.47 Mhz repeater.

The second item is two lists of members sorted by **Last Name** and by **USERID**. This should make it easier for leaving mail as well as learning who some of our members are.

We have recently implemented a subaudible tone access on the 145.47 repeater between the hours

of 00:00 and 06:00. If you wish to access the repeater during those hours, you will need to program a 103.5 Hz tone on your 144.87 transmit frequency. There was a question at the last club meeting regarding who would be inconvenienced by this and it was unanimous that this would not be an inconvenience. Further on down the road, as we implement the remote receivers, they will also be PL'ed on 103.5 Hz to prevent any co-channel interference. As this happens, the main site receiver on Sweat Mtn will NOT be PL'ed for those without PL capability as well as traveling hams.

The meeting this month will be on October 9, 1991 (2nd wednesday), at Sonny's Bar-B-Q, on Hwy 9 (Alpharetta Hwy), north of Holcomb Bridge Rd, on the west side of the street. It is also just south of Ryan's Steak House and is on the opposite side of the street from Ryan's. We start gathering for a dutch dinner between 18:00 and 18:30 and the meeting starts at 19:30. Hope to see you there.

The secretary and treasures reports will be presented at the meeting.

Mark your calendars for November 13, 1991 meeting. This is the election night and the club needs your support.

Mark your calendars for December 11, 1991 christmas party. This is a bring a covered dish starting at 18:00. They have been fun in the past so plan for it.

This has been a great year for the club. Lets keep it going. It can only get better.

Databases for this newsletter were submitted by K4JHM, Edited by your Treasurer N4CLA, Published by KD4APK, stamped, folded and mailed by KC4WGK.

## GREATER ATLANTA EMERGENCY PHONE NUMBERS

These speed dial numbers are for the benefit of the amateur community in the Atlanta metropolitan area and are not to be considered confidential. Please use them properly. This is an open emergency autopatch with no timers running while operating in this mode.

When operating the emergency patch, please use proper radio operating procedures such as "OVER" "SAY AGAIN" "ROGER". The operators at the receiving end DO NOT know that you are on the radio. The only thing they know is that this call is on the telephone line and if you are in a noisy area to the repeater, they think that they have a bad telephone connection and may possibly hang up. Identify yourself as an amateur radio operator. Find out if they can hear you before you go into a long dissertation. Be specific and exact. DO NOT ramble on and on. Make short transmissions. Again, they may think they are on a telephone to telephone type call and may try to interrupt and won't be able to. If they ask for your name, give it to them. If they ask for your phone number, give it to them. DON'T try to impress them with the fact that you are in a car and you are not calling from a real telephone and that you don't have a phone number for a call back number. Give them your home number or your work number, some number where you may be reached if they need more information. Remember, you are trying to help someone else, so help them. Try to familiarize yourself with the area of town that you drive most frequently, this way you will know which agency you need to call without arbitrarily dialing "911". If you call Fulton County 911, and they do not service that area, they may either transfer your call or tell you to call the appropriate service. Ask them if they will transfer you, and if they refuse, just accept it and call the other service. THIS TAKES TIME, AND TIME IS IMPORTANT. Please understand that they also have rules.

There are two methods of operating the emergency auto patch. They are as follows:

*XXX	SPEED DIAL EMERGENCY NUMBER
#	DISCONNECT
0*0 thru 0*9	MACROs. These dial only the county facilities
#	DISCONNECT

There are twelve counties in the metropolitan area. We cover nine of them with speed dial numbers, and three are not covered. The three that are not covered are PAULDING CO., ROCKDALE CO. and WALTON CO.

Before accessing the emergency patch, you must identify your station, then enter the (\*) followed by the 3 digit speed dial number or the macro number 0\*0 thru 0\*9. When you have completed your call, disconnect the patch by entering the (#) and identify your station and log your call.

When using the three digit speed dial number in the list rather than the macro,

The first digit represents the county number.

The second digit represents the type of service you are requesting.

(0 = Police) and (1 = Fire).

The third digit represents the county service or the city within the county.

(0 = County) and (1 thru 9) will be the cities within the county.

The counties are kept in alphabetical order, therefore it will be much easier for you to remember the order of the counties.
